Summary: A company website specializing in wedding videography
Role: Website Developer & Marketing Consultant
Tools: Wordpress, CSS
Launch: March, 2019   **Updated**: Feb, 2022

Experience

Computer Consultant   **October, 2019 - present**
Harvey Norman   **Perth, WA**
Provide technical assistance for faulty products, ensure store-wide merchandising standards, and provide sales assistance to all customers.
Key Accomplishments:
- Helped foster a clean merchandising standard across multiple stores. This has resulted in a faster sales process, less mismatched stock, and better rapport with customers and less errors for administration.
- Reached sales targets across multiple prospective goals from various suppliers. This increased general knowledge and understanding of brand from customers in the prospective locations furthering traffic and revenue for those specific suppliers. Notably Optus and Trend, and Harvey Norman 'Product Care'.
- Learned all complexities of business, from; tech, consultation, cashiering, and photo assistance, allowing the offloading of demand of tasks when one of these areas increased in traffic.

Web Developer & Marketing Consultant   **March 2018 - present**
West Wolf Media   **Perth, WA**
Develop a marketing effort with the company. This included building a website as part of helping to foster a word-of-mouth type campaign.
Key Accomplishments:
- Charted a successful marketing campaign for the company, where knowledge spread through word of mouth and is now the sole source of business.
- Developed a fully functioning Wordpress website, which has had very positive user feedback, commending 'ease of navigation'.
- Continued maintenance and development of the website has been made, which has ensured the website remains up to date with policy, usage and security.
